The Rubber Granulate Market Report 2003 on Great Britain

- including developments in Continental Europe and the U.S

- Have you ever intended to sell Rubber Granulate to or buy it from the **U.K.**?
- Have you ever wondered how the market situation for Rubber Granulate is like in Great Britain and **Continental Europe**?
- Have you ever thought about exporting your Rubber Granulate to the **U.S. market**?

For your convenience we have now translated our daily business experience into a revealing report on the current Rubber Granulate market in Great Britain, including developments in Continental Europe and the U.S.

In compact form the market report 2003 highlights the latest Rubber Granulate application developments. It traces ongoing **trends** in the U.K. and compares them to Continental Europe and the Republic of Ireland. Our findings are expressed in numerous **crucial parameters** such as market size, price levels, customer requirements as well as demand and supply figures.

Rubber Granulate users will get an overview about possible supply alternatives.

Rubber Granulate suppliers will be able to target new customers.

This concentration of market know-how will give you a competitive edge: it will assure you sustainable development and set you apart from your competitors.

The report consists of a principal part plus a comprehensive appendix – in total more than 100 pages (included are: a list of major European Rubber Granulate suppliers and of potential U.K. customers, an abstract on the technical opinion on the application of rubber granules for football pitches with artificial turf, a market volume assessment for the Republic of Ireland, a list of Rubber Granulate end uses and many more reports).

The Rubber Granulate Market Report 2003 on Great Britain can be ordered for EUR 480.00 or GBP 330.00 per copy (excluding VAT if applicable) exclusively from Innovation & Technology Consulting and is NOW available.
